**Below is essence of the paper “The Celestial Creation and Its Time Cycles”, ISSN (Online): 2348-2532-11093146 published in Quest journal of Research in Environmental and Earth Sciences Volume- 11, Issue- 9, Page No.: 31-46 [September 2025] on [www.questjournals.org](http://www.questjournals.org).**

First, a clarification: The Period of orbit of ‘Point of Earth’s perihelion’ is 21,600 Tropical solar years. Circular shaped ‘Abell 039’, visible in Hercules constellation, at about 16h 27m & 46 degree north of ecliptic is the Apex & Opening (hole) of our Rupert’s drop shaped Heliosphere. This is the *Brahmarandhra* of our Heliosphere. This is the Link between our Solar system & Universe beyond Solar system. This is the Source of everything, including- Magnetic plasma filled with energy, Comets & Waters. All Celestial bodies of our Heliosphere, including the Sun, have originated from this *Brahmarandhra*. Everything emerging from the *Brahmarandhra* is full of consciousness. The entities (like- Magnetic plasma, Comets, Clouds of water, Cyclones) emerging from here do have their own destined path. They travel, based on their own consciousness. The *Brahmarandhra* is beyond all the calculations & it is the Source of all calculations.
