Forced migrations, as mentioned above has caused oppression & suppression to migrated populations& at the same time it has created pressure on the natural resources of host countries.

In contrast to above, there are certain migrations for the sake of Expansions, as listed below-

Sl	Original Territory	Name of Dynasty	Extended Territory
01	Europe	N. A.	Americas
02	Europe	N. A.	Africa
03	Europe	N. A.	Australia's
04	China	Turkman	Turkey
05	Mongolia	Mughal	Indian sub-continent

Migration for expansion has caused oppression & suppression to host populations. The natural resources of the host countries are being controlled by the inmate people & are heavily mis-utilized.

Both the kind of migrations have created pain for specific group of people & burden on the Resources of host countries. So, now it is time to undo the mistakes happened in the form of Human migrations. Let every group of population enjoy their respective local nature.
